

Materials Sciences Division

ERNEST ORLANDO LAWRENCE BERKELEY NATIONAL LABORATORY

Environment, Health, and Safety in the Materials Sciences Division

MSD 010, part A Hazard Communication and Overview of EH&S Resources

Required for all MSD Employees and Guests who work on the main site

last revised 10/9/00

Laboratory Director's Message

- *"We must have the creativity to do great science and the discipline to execute the work safely."*
- *"We must use good judgment in balancing scientific creativity with the discipline that respects the environment and the community."*
- *"If the work is unsafe, or it will create an environmental problem, don't do it."*
- *"We have more responsibility than any other laboratory to do our work with sound and safe practices."*

Charles V. Shank

Stop Work Policy

Laboratory Emergency Number

■ **Stop Work Policy**

- **All LBNL employees, contractors, guests, and visitors have the right to order work to be stopped IMMEDIATELY if they encounter or discover any work-related activities that constitute an imminent, serious danger to personnel or to the environment**

■ **Laboratory Emergency Number**

- **Dial x7911 from any lab phone to report emergencies**
- **Emergency examples:**
 - Fires, hazardous material spills, rescue and emergency medical situations**
